Formulations and Certificates of Analysis according to ISO, Ph. Eur., USP

PanReac AppliChem manufactures its DCM and Ready-to-Use media according to ISO 9001:2000 and also following the requirements of a number of validated methods, standards and microbiological guidelines (ISO 11133:2014, Ph. Eur., USP, etc.).

We follow specific criteria for culture media described in different specialized literature (ISO standards, European guidelines, local regulations).

Extensive certificate of analysis, technical data sheets and monographies

We have a complete certificate of analysis for every batch which includes physical-chemical data and fertility tests with appropriate strains according to different standards and norms. We have available from our website www.itwreagents.com updated technical data sheets and also monographies with complete information and pictures.
