

## PRODUCT DATA SHEET

### Product description

|                     |                                |
|---------------------|--------------------------------|
| Catalogue Number    | 1-121-86-1                     |
| Product description | AHN myTip® 200 µL, yellow, bag |
| Sales Unit          | case / 30 x 1000 tips          |

### Product characteristics

|                                |                                                           |
|--------------------------------|-----------------------------------------------------------|
| Graduations                    | yes                                                       |
| Filter                         | no                                                        |
| Filter Specifications          | N/A                                                       |
| Low Retention                  | no                                                        |
| Sterilised                     | no                                                        |
| Autoclavable (max. °C, period) | yes, 121 °C, 20 min                                       |
| Purity                         | Free of RNase, DNase, Human DNA, Pyrogens, PCR Inhibitors |

### Size

|                   |          |
|-------------------|----------|
| Max. volume       | 200 µL   |
| Length of product | 53.40 mm |

### Material/colours

|                   |                    |
|-------------------|--------------------|
| Product material  | polypropylene (PP) |
| Colour of product | yellow             |

### Packaging

|                                   |                    |
|-----------------------------------|--------------------|
| Type of Packaging                 | Bag                |
| Pcs./Bag                          | 1000 tips          |
| Pcs./Case                         | 30000 tips         |
| Dimension Case Carton (H x W x D) | 400 x 400 x 600 mm |

### Storage and Handling

|             |                       |
|-------------|-----------------------|
| Temperature | below 35°C            |
| UV light    | protect from UV light |

**Note:** Improper storage can initiate degradation, which results in colour changes and can have negative effects on the physical properties of the products.

**Safety:** The product is not classified as dangerous.

**Recycling:** The product is recyclable.
