

Sensors and Accessories for SevenGo™ Units, METTLER TOLEDO

② Sensors and pH electrodes for SevenGo™ units

All SevenGo™ instruments and corresponding sensors are equipped with IP67 connections for easy hook up and full IP67 protection – even when no sensor is fitted.

Article	Order No.
InLab®413 SG (IP57), sensor	61 50 40288
With IP67 BNC/cinch connection for easy hook up	
InLab®413, IP67, pH electrode	61 50 00379
„3-In-1“ pH electrode with IP67-BNC/cinch connector, PEEK shaft, 2 m fixed cable for measuring with SG2 and SG8	
InLab®413/10 MSG, IP67, pH electrode	61 50 40289
„3-In-1“ pH electrode with IP67 BNC/cinch connector, PEEK shaft, 10 m fixed cable for measuring with SG2 and SG8

② ErGo, Field Assistant	61 50 02320
Was developed specially to increase user-friendliness and reliability of operation in process measurement and field applications. The ErGo™ consists of a U-tube holder with an adjustable carry-strap. Removable plastic quivers are integrated in both tube ends for the safe storage of electrodes. The instrument can even be used for calibrations.	

ErGo™ supports the user in many different ways:

- Instrument and electrode can be safely held in one hand.
- Instrument and electrodes can be conveniently carried with the carry-strap around your neck or on your shoulder.
- Individual adjustment of the viewing angle enables optimum reading of the display.
- The user can work in upright position, with both hands free to operate the instrument and to handle the electrodes or solution.
- ErGo™ can also be used as a table stand, with individual adjustment of the viewing angle.
- With ErGo™ you can hang up the SevenGo™ and electrodes on hooks and store or transport them in the practical field case.

Neck strap, spare carry-strap for ErGo	61 50 02321
Article	Order No.
ErGo electrode quiver (spare quiver)	61 50 02323

Article	Order No.
③ SevenGo™ clip, electrode holder	61 50 02325
Can be fitted on both sides of the unit and holds the electrode at fixed angles. With one hand you can hold the sensor in the solution and operate the instrument simultaneously.	

Further accessories

Article	Order No.
Disposal protective covers, 3 pcs	61 50 02326
Clip cover	61 50 02327
Cover when no clip is fitted	
Lid for battery compartment	61 50 02328
Field case, empty	61 50 02330
For instrument, electrodes, ErGo™ and diverse accessories. Ideal as „field laboratory“ (mobile workplace).	
Hand strap	61 50 02331
Wrist strap	
USB-IR adapter	61 50 02332
Permits data transfer from SevenGo pro™ to the USB interface	
RS232-IR adapter	61 50 02333
Permits data transfer from SevenGo pro™ to the RS232 interface	
Field electrode arm	61 50 02334
Electrode arm for mounting in the field case	
Rubber feet, 2 pcs	61 50 02335
Anti-slip, for fitting to the instrument bottom	
SevenGo™ seal kit	61 50 02336
Seals for battery compartment and electrode input socket	
ErGo adapter	61 50 02337
Field case accessories kit	61 50 02360
Consisting of hand strap, rubber feet, SevenGo™ clip, protective covers, field electrode arm	

1) Compatible with BalanceLink data transfer software
