

Pipette Washer-Rinsers, NALGENE®, IDL

Leak-proof washer-rinsers made of high-density polyethylene. Wide range of cycling speeds: 1,5 to 12 l/min without siphon stall. When there is a drop in water pressure, the water inlet at the top prevents dirty water being drawn back into the water line. Tubing for both inlet and outlet is packed with each unit.

Size	Pipette length max. mm	Overall height mm	Material	Order No.
D	406	775	HDPE	24 87 52451
E	610	965	HDPE	24 87 52452
