

Electronic Industrial Balances, KERN

① Industrial scale KERN DE-D

Multi functional scale with IP65 display!

Features:

- High mobility: Battery operation/rechargeable battery pack (optional), compact, flat construction and low weight make this balance ideal for use in several locations (production, warehouse, dispatch department, ...)
- Flexible positioning of display device: mounted onto the front, free-standing, mounted to the wall (wall mount standard)
- Display device: IP65. Protected against dust and water splashes (only when using battery or rechargeable battery pack)
- PRE-TARE function for manual subtraction of a known container weight, useful for checking fill-levels
- With the recipe function you can weigh the different ingredients of a mixture. As a check, you can also recall the total weight of all the ingredients
- Freely programmable weighing unit (e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar)

Technical data:

Display: Backlit LCD display, digit height 25 mm

Dimensions of display device (WxDxH) mm: 225x110x45

Battery operation: possible, 9 V, not included

Permissible ambient temperature: 5° – 35°C

Standard printer KERN YKB-01N	10 58 35005

③ Industrial counting scale KERN CXB

Counting made easy! Thanks to the simple operating philosophy, you can easily determine the reference piece count and read all important balancing data from 3 separated LCD-displays within a few seconds: piece count, reference weight, total weight. All models include a stainless steel platform, dust and splash water protection IP 54 as well as the calibration programme CAL. Thanks to the compact structure, the low weight and the battery operation, you have the highest possible mobility with this device. This is ideal when you have to balance in different locations, e.g. during an inventory. All models include a power supply unit as well as a protective cover. Optionally available: DKD-calibration certificate.
