

testo 104 Digital Folding Thermometer, Testo

The testo 104 is the first water-proof folding thermometer! It offers a handy and practical support when carrying out monitoring measurements. The folding thermometer testo 104 measures temperatures precisely in production, storage and processing, in gastronomy, supermarket chains, food retail and wholesale, or in industrial areas. The testo 104 already begins measurement from a fold-out angle of 30°, and can therefore be used flexibly. After measurement, the probe can be simply folded away, and the instrument stored safely until the next measurement – for example in a trouser pocket. The folding thermometer testo 104 is compliant with HACCP and EN 13485.

- The folding thermometer testo 104 is convenient for measurements of all kinds.
- It is ideally suited to core temperature measurements thanks to a robust metal folding joint and a long, stable measurement probe.
- Protection class IP65, allows cleaning under running water and use under all conditions.
- The rubber-coated surface guarantees non-slip handling.
- The especially large, illuminated display allows fast and error-free readout of the measurement values.
- Thanks to the coloured strips included in delivery, the instrument can be allocated to individual persons or certain areas of work.
- It has automatic final value recognition thanks to Auto-Hold, and storage of min./max. values.
- It is the first thermometer which combines a folding mechanism and waterproofness.

Technical data:

Measurement unit:	Temperature (°C / °F / °R)
Sensortyp:	NTC
Measuring range:	-50 to +250°C
Resolution:	±0,1°C / °F / R°
Accuracy:	± 1,0°C (-50 to +30.1°C) ± 0.5°C (-30 to +99.9°C) ± 1% (+100 to +220°C)
Display:	LCD, 1-line, not illuminated
Measuring rate:	2 measurements per second
Response time:	t ₉₉ = 10 sec (in moving liquid)
Storage temperature:	-30 to +70°C
Operating temperature:	-20 to +60°C
Battery type:	2 x AAA
Battery life:	100 h (typical)
Battery change:	by yourself
Housing material:	ABS/TPE /PC, diecast zinc, stainless steel
Switching on/off:	With folding mechanism (ca. 30°) / Auto Off after 60 mins
Protection class:	IP65
Warranty:	2 years
Dimensions (probe folded out):	265 x 48 x 19 mm
Weight:	165 g (incl battery)

Article	Order No.
