

SICCO Mini-Desiccators, Bohlender

Three versions (one, two or three permanently fixed compartments), one-touch door, including desiccant.

- One Touch Door with circular seal
- Robust construction
- Transparent, shatterproof cabinet made of polycarbonate
- Superb all-round visibility
- Hinge door with wide opening angle
- Lightweight, transportable
- Stackable
- Desiccant in a handy, resealable container included in delivery

Ideal for small parts, very handy.
SICCO Desiccators are designed for storing or drying humidity sensitive products using silica gel. The tight fitting door protects the contents from contamination from the atmosphere. The controlled environment inside the desiccators are ideal for storing reference materials, retained samples, metallographic specimen, tobacco and DNA-samples.

Technical data:

Panels: clear
Material: polycarbonate
Temperature resistance: from -35°C to +70°C
Use: normal pressure
