

Centrifuge Bottles, Thermo Scientific Nalgene, IDL

Transparent, autoclavable centrifuge bottles made of polycarbonate with polypropylene screw closure. To guarantee leak-proof operation at high speeds or with hazardous substances you must use the 250- and 1000-ml sizes with Nalgene™ sealing cap assemblies.

Volume ml	load capacity up to g	Order No.	PU pc/Pack
250	27500	23 87 31221	4
500	13700	23 87 31223	4
1000	7100	23 87 31224	4
1000	7100 (for IEC rotors)	23 87 31225	4

❗ Available only in original packaging units. No fractions possible.

N.B.: An adapter is needed for 250-ml bottles on Sorvall GSA rotors (see Order No. 23 87 31250).
