

BOLA GL Quick Connectors, Bohlender

Two-part quick connector completely made of PFA. Quick and easy disconnection of flow. When disconnected, the flow is interrupted by means of built-in non-return valves and only continues after a safe locking. Suitable for pressure up to max. 6 bar, for vacuum of 700 mm Hg and working temperatures up to max. +200°C. Universal chemical resistance, the product is only exposed to PFA.

Technical data:

Temperature resistance: -50°C to +200°C

Chemical resistance: universal
