

Sampling Bottle DIN 12036, Behr

Sampling Bottles DIN 12036

Glass sampling bottles and solid glass stopper behrotest® conforming to DIN 12036 conical ground and solid glass stopper with rounded end. Made of 3.3 borosilicate glass.

The stopper offer two major advantages:

- No formation of air bubbles at the end of the stopper when immersed in the sample.
- Low risk of breakage and cracking.
