

Absorbent Paper with Polyethylene, Hahnemühle

WW6PB006

Hahnemühle

The highly absorbent protective paper 295PE offers total protection of surfaces in the laboratory thanks to its double layer.

- Cellulose layer: One layer of pure filter paper enables a large quantity of liquids to be absorbed.
- Polyethylene layer: totally waterproof, prevents liquids from reaching the protected surface.
- The high purity of the filter paper allows for recovery and re-use of the spilled liquid.
- Type 295PE weighs 120g/sqm, is 0.2 mm thick and absorbs 110 mg of water per sqm.

Grade	Weight g/m ²	Thickness mm	Size	Packing type	Order No.
295 PE	120	0.2	460 mm × 50 m	1 roll	10 15 95865
295 PE	120	0,2	1200 mm × 50 m	1 roll	10 15 95874
295 PE	120	0.2	460 mm × 570 mm	100 sheets	10 15 95885

Other sizes on request.
