② Generation E

The new electronic dispensers Multipette® E3 and E3x with large display and new, intuitive user menu make serial liquid dispensing extremely easy and comfortable. The new electronic dispensers Multipette® E3 and E3x are the follow-up models of the time-proven Multipette® stream and Xstream.

- Large colour display: all program functions at a glance, clearly understandable user menu, extremely easy to program
- New function „Aspirate and dispense“ („A/D“): Pick up an unknown volume of a liquid and dispense it step by step in preselectable volumes
- Extended speed range: more flexibility in picking up and dispensing of liquids
- Favourites: 5 methods can be saved for each Combitip size
- Personalization: individual dispenser identification in the „Options“ menu
