

ThermoMixer® C, Eppendorf

eppendorf

The **Eppendorf ThermoMixer®C** combines unique mixing performance with excellent temperature control to consistently guarantee complete, dependable and reproducible test results. Improve your assay results by mixing and incubating samples at the same time.

- Excellent mixing performance due to unique 2DMix-Control technology
- Prevent condensation and improve temperature homogeneity with the new ThermoTop
- Ergonomic design
- Eppendorf QuickRelease™ technology for simple exchange of SmartBlocks
- Maximum flexibility due to large selection of exchangeable SmartBlocks
- Heating, mixing and cooling in all commercially available tube and plate formats from 5 µl to 50 ml

Eppendorf ThermoTop® – The perfect addition

Now you can control the temperature of your samples with ease: The new ThermoTop with its unique condens.protect technology reliably prevents condensation formation on the tube lid and wall. The Eppendorf ThermoTop allows for easy, intuitive operation and does not need an additional cable connection. When the ThermoTop is placed on the device, it begins heating immediately. The temperature optimally adapts to the test temperature to ensure that it does not negatively affect the sample. Condensation droplets have no opportunity to form.

Article	Order No.
① ThermoMixer® C	10 69 82015
Base unit without Eppendorf SmartBlock™, 220 V–240 V	
② ThermoTop®	10 69 83003
with condens.protect® technology	
SmartExtender, 1,5 ml	10 69 80008
