

Orbital Shaker, neoLab®

Orbital Shaker

- Movements: orbital, reciprocal, and vibrating
- Sophisticated motor control system for continuous operation in silence
- Precision speed control
- With digital timer 1 to 999 min
- Acoustic signal when the time is up
- Memory for user-defined settings
- Programmable mixing modes with up to 4 different movements

The Multi Shaker is supplied with 8 magnetic clips and a universal platform. To this, **universal stands** can be fixed to ensure reliable clamping of bottles etc. The holding rod set consists of 2 rim fixations with clips for putting on the platform, as well as of 4 plastic holding rods for the vessels.
